Art Unit: 1652

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12, 20-22 and 25 drawn to a nucleic acid molecule, a vector containing the nucleic acid, a host cell containing the vector, a method of making a polypeptide by culturing the host cell, a method for detecting the nucleic acid molecule, a kit and a method for modulating the activity of a polypeptide comprising contacting a cell expressing the polypeptide with a compound which binds to the polypeptide, classified in class 435, subclass 6, 196, 320.1, 252.3 and class 536, subclass 23.2.
- II. Claims 13-15, 17-19, 23-26, drawn to a polypeptide, a method for detecting the presence of the polypeptide, a kit, a method for identifying a compound which binds to the polypeptide and a method for modulating the activity of the polypeptide comprising contacting the polypeptide with a compound which binds to it, classified in class 435, subclass 19, 196.
- III. Claim 16, drawn to an antibody, classified in class 530, subclass 387.9.

Please note that Groups I and II both contain claim 25 since it is drawn to a method of modulating a polypeptide by contacting either a cell expressing the polypeptide or with the polypeptide.

The inventions are distinct, each from the other because:

Groups I-III are drawn to completely different products that are patentably distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different

classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 703-308-1834. The examiner can normally be reached on Monday - Friday, 7:30-4:00.
